Extent of Obligation & Limitation of Liability Waiver

Synbiotics Corporation takes great pride in successfully completing shipments domestically and internationally for our customers. For decades we have assisted our customers in producing puppies all around the world. In consideration of circumstances beyond our control, we require this liability waiver be read and signed for all of our shipments.

Your business is greatly appreciated!

- a) Synbiotics makes no representation or warranty that a successful whelping will result from any breeding. It is recommended that breeders refer to their inseminating Veterinarian when deciding the straws per insemination and make adjustments accordingly. Synbiotics is not responsible for accuracy of post thaw data. Values listed were provided by the collecting Veterinarian at time of transfer to SBIO.
- b) Synbiotics shall exercise reasonable care in storing semen and in training veterinarians to conduct inseminations. Aside from the obligation to exercise reasonable care, Synbiotics shall not be responsible for acts of commission or omission by veterinarians who are not employees of Synbiotics, and Synbiotics expressly disclaims any such liability.
- c) Synbiotics shall not be responsible for loss or accidental thawing of semen which results from storage tank failure, from any act by non-employees of Synbiotics who may be retained to transport semen, or from any acts by employees or agents of Synbiotics unless such acts constitute gross negligence, or from any other cause beyond the reasonable control of Synbiotics. If such event occurs, Synbiotics' sole liability will be to return any prepaid fees related to the shipment.
- d) If we are requested to use a vapor shipper other than a Synbiotics Corporation vapor shipper, Synbiotics will not be responsible for any liability to return any prepaid fees related to the shipment.
